---

What makes us different from other repair centers?

Our focus has been on SmartPhones since their inception.

We understand the intricacies that are a part of any SmartPhone refurbishing.

We often have to locate difficult components and sometimes even have to find comparable parts direct from the parts manufacturers and 3rd party manufacturers.

Send us your BER and SCRAP equipment to have re-usable parts salvaged, we can also make sure the non-reusable parts are properly recycled.

We create custom software to solve SmartPhone software corruption, partial loads, reloads and previous data scrubbing.

We test everything:

InfraRed

BlueTooth

Wifi

Digitizer Accuracy and Drift

Software Version and other internal information

PC Sync Port & Connectivity

Charge Port

Headset Connector

Mic

Earpiece Speaker
